

## **Mock Airport**

This will be outside, location TBD the morning of. We will need you to come at 8:30 to help with setup of this activity. The girls can pretend to be airplanes flying in a pattern. We will have a runway set up and several flags that the girls can hold. We will need someone to be ATC, someone to help explain the rules & help in the holding areas, and a third to help with the traffic pattern. Tail flags will have numbers on them but also colors (so for younger kids you can call out Pink Flag, Yellow Flag). Calls can be "clear for takeoff" "turn crosswind (or downwind, base, final etc). If old enough kids talk about emergencies take precedence and divert people to the holding areas by calling an emergency.

Supplies:

- Runway

- Cones

- Tail "Flags"

- Holding Area Signs (2)

- Dowels

- Sidewalk Chalk
